

PRODUCT DATA SHEET

BRAX CALCIUM GREASE MP2 & MP3

Description

BRAX CALCIUM GREASE MP2 & MP3 is a quality, smooth, calcium-based soap and is fortified with the best known natural solid lubricant graphite. Manufactured to NLGI consistency; It provides the best combination of performance and economy for most application.

BRAX CALCIUM GREASE MP2 & MP3 is resistant to water and have good mechanical stability. The use of this grease will minimize wear through the use of the solid lubricants and provide extended lubricant coverage due to even distribution of the product along the wearing parts.

Benefits:

- Protection against rust and corrosion
- Excellent water tolerance
- Possesses excellent shear stability under heavy duty service

Application:

Recommended for flexible couplings in various industrial where incidental water contact is high.

Typical Properties:

Characteristics	Calcium MP3
NLGI Consistency class	3
Appearance	Smooth and Homogenous
Color	Yellow
Type of Soap	Calcium
Work Penetration @ 25 ^o C	220 - 250
Drop Point, ^o C Min	90 - 100
Copper Strip Corriasion	Pass
